The American Institute of Architects is a national organization founded in New York City in 1857 by 13 architects and has grown to include chapters in various countries, states, and cities, to the strength of 96,000+ members. AIA is currently based out of Washington, D.C.

In New York City, every borough founded its own chapter. The Queens Society of Architects, created in the 1930s, transitioned in 1945 to become AIA Queens, Inc.

The Queens Chapter of the American Institute of Architects (AIA Queens) is the voice for our architectural community, engaging and harnessing the diversity of Queens to improve, create, and sustain a better built environment and be a resource to its members and society. Our chapter envisions driving positive change through the power of design, adaptability, equity, leadership, and community.
